

Risk Assessment Flow Chart

The requirement to carry out risk assessments is not new, the requirement to document them has now been formalised by the Scout Association. The below flow chart details how Chester and District is complying with that change and the procedure for Leaders to follow.

*GSLs must hold a full appointment on Compass for at least 12 months, if not Risk Assessments must be approved in consultation with the DC.
Groups without an appointed GSL must submit Risk Assessments to the District Commissioner.
